

Client _____

Longridge High School

Project Description _____

Conversion of Existing Science Laboratory

Project Details _____

The works at Longridge High School involved converting an existing unused Science Laboratory into two new and much needed English Classrooms, each with its own store room.

Works consisted of minor demolition to form new door openings, stripping out, mechanical and electrical alterations, asbestos removal, electrical installation, new acoustic stud partition walls, new fire doors, suspended ceiling alterations to suit the new layout, new floor coverings, and complete redecoration.

The finished project enabled the school to benefit from the previously unused floor space with new and improved facilities.

Location _____

Preston Road, Preston, Lancashire, PR3 3AR

Contract Period _____

6 Weeks

Contract Administrator _____

Eric Wright Facilities Management

Contract Value _____

Approx. £22,000.00
