

**Client** \_\_\_\_\_

Promethean Ltd

**Project Description** \_\_\_\_\_

Construction and Fit-Out of new Staff Shower Facilities

**Project Details** \_\_\_\_\_

Works at Promethean House comprised the construction of new male and female shower facilities.

Works consisted of stripping out part of an existing unused office space, construction of new stud partitions to form the male and female showers, full electrical and plumbing installation, new floor coverings, hygienic cladding to ceilings and complete redecoration.

This project went ahead to promote healthy living in the work place. The intention was to add extra facilities that would encourage members of staff to walk, run or cycle to their place of work and be able to freshen up with these new shower facilities once they arrive and before they start work.
